CONTINUING ANALYSIS OF [REDACTED]

REVEALS A LARGE HF COMMUNICATIONS FACILITY UNDER CONSTRUCTION AT 550245N 0831830E 3.5 NM WNW OF PLOMNIKOB0 AND 12.5 NM EAST OF NOVOSIBIRSK UR B.E. NONE. THE FACILITY CONSISTS OF AT LEAST EIGHT 2-2-2-2-2-2 FISHBONE, EIGHT 2-2-2 FISHBONE, AND 6 QUADRANT ANTENNAS. EXTENSIVE GROUND SCARRING THROUGHOUT THE ANTENNA FIELD INDICATES FURTHER EXPANSION IN THE NUMBER OF ANTENNAS TO BE CONSTRUCTED. A LARGE CONTROL BUILDING IS UNDER CONSTRUCTION IN THE CENTER OF THE ANTENNA FIELD. IT CANNOT BE DETERMINED IF THE CONTROL BUILDING WILL BE EARTH-COVERED. IT IS OF INTEREST TO NOTE THAT AN ARCH-ROOFED, PROBABLY TRIPLE-SECTIONED, EARTH-COVERED BUNKER IS LOCATED 3 NM TO THE EAST AT 550300N 0832320E. IN ADDITION TO THE EARTH-COVERED BUNKER, AN ADJACENT SUPPORT AREA CONSISTS OF SIX BUILDINGS. THE FUNCTION OF THIS FACILITY CANNOT AS YET BE DETERMINED. AT THE PRESENT TIME, THERE IS NO APPARENT CABLE CONNECTION FROM THE BUNKER TO THE HF COMMUNICATIONS FACILITY.
